USING CITY WATER WITHOUT PAY. THE CITIZENS' ELECTRICAL ILLUMINATING COM-PANY FOUND TO HAVE THREE CON-NECTIONS WITH THE MAINS AT ITS

POWER-HOUSE. The new Water Purveyor, Peter Milne, recently had his attention directed to the fact that the Citizens' Electrical Illuminating Company had three connections with the water mains at its power house, at De Kalh-ave, and Rockwell Place. The company furnishes a large part of the electric lighting in the business part of the city. Hugh lighting in the business part of the city. Hugh McLaughlin, ex-Under Sheriff, is its president, John Delmar, ex-County Clerk, is its secretary, and Thomas F. Nevins, ex-Chief Engineer of the Fire Department, is its treasurer. Purveyor Milne received the information from a man whom he did not know, and sent Inspector David Smith to investigate. The inter reported as follows: "Ibridiang southwest corner Rockwell Flace and De Kalbave. One water connection on Rockwell Place, four inches diameter, with 4-inch water meter. One water connection on the Kalbave, four inches diameter, connected with bohers for water supply: no water meter on this pipe. One water connection on Hudson-ave, three-inch pipe leading into building; used for fire purposes only."

The fire hydrant connection was put in on November 21, 180, with an agreement that it was not to be used save in case of fire. Purveyor Milne said yesterday that there was a record of the connection controlled by the meter, but none of the other connection. The consumption of water from a four-inch main would be about \$8,000,000 gallons a year, and about \$5,000,000 gallons a year, and about \$5,000,000 gallons a year, and about \$5,000,000 gallons a year, and about \$6,000,000 gallons a year and gallons a year and gallon McLaughlin, ex-Under Sheriff, is its president, John

THE MAYOR AND THE OLD CITY HALL. Mayor Gilroy, in alluding yesterday to the bill introduced at Albany to prevent the destruction of miroduced at Albany to prevent the destruction of the old City Hall, said that he was convinced that the present structure ought to be removed to make way for the new building, and that no arguments against this plan had affected his judgment on the subject. It would be folly, he thought, to go out of the park and spend \$7,000,000 or \$8,000,000 for a site, when the city had one which cost nothing. "The problem," he said "has received the fullest consideration, and it has been decided by the new Municipal Building Commission that the City Hall Park is the place for the building."

PRESIDENT ELIOT'S REPORT.

HIS RECOMMENDATIONS MERELY SUGGESTIONS THE ATHLETIC COMMITTEE WILL CON-CUR IN FEW OF THEM.

Boston, Feb. 2l.—The feeling at Cambridge in regard to President Ellot's report on athletics is one gard to Precident Ellot's report on almetes is one of surprise rather than consternation. In the first place, the impression that football has been abolished, or that Harvard is henceforth to be gov-erned by the recommendations as set forth in the annual report, is entirely incorrect. The reforms are merely suggestions made to the Board of Overseers by the president of the university. It is entirely erroneous to suppose that they will be adopted. Some years ago the president and fel-lows vested all power for the regulation of athletics in a "committee on the regulation of athletic sports," consisting of faculty members, graduates and undergraduates. While this committee exists nothing can be done by the overseers in regard to athletics without a radical breach of trust. This committee is not in favor of all of President Ellot's reforms; consequently there is no im mediate danger to sports on account of the presi-

dent's suggestions.

The consensus of the opinions of leading college athletes is that there are not more than two of the six recommendations of President Ellot which stand a reasonable chance of being put into opera-tion, now or later, without modification. His first surgestion, that "there should be no freshman intercollegiate matches or races," would not do what it is intended to do. It would simply mean HOBOREN.
